

How to use this guide

This guide is divided into two sections, the first is designed to give a quick overview and the second to explain the options in greater detail.

The drawings on this page refer to each board illustrated in our colour brochure and give budget costings for a representative cross-section of our range. In each case two prices are given, a "from" price for the basic board, (i.e. without any posts, headers or accessories, and the second a "price as shown" reflecting the price for the exact specification illustrated. Both prices include delivery costs.

The remaining pages illustrate the complete range in detail and are designed to guide you through the process of identifying the board(s) that best suit your requirements.

Getting a quotation

The enclosed "Notice Board/Display Case Specification and Quotation Request Form" is designed to prompt you for all the information that we need in order to provide you with a detailed, no-obligation quotation. Further copies of the form can be downloaded from the "e-brochures" area of our website.

How to order

To accept a quotation, simply ring, email or write to us to confirm your acceptance. All orders are acknowledged on receipt. Delivery is usually 4 - 6 weeks from receipt of order. On completion of manufacture we will contact you to arrange a convenient time for delivery or collection.

Special Sizes: For instances where none of the standard sizes detailed above are suitable, we are able to offer bespoke size boards to order. To receive a no-obligation quotation, please contact us with details of your requirements.

MmT Notice Board Specifications, Options & Accessories

Finish	1	The material used in the manufacture of MmT notice boards has a dark brown colour and a slight texture similar to the grain of timber. All MmT posts, are black. Due to the recycled content of the materials slight variations may occur between different batches of material. We are happy to provide material samples on request.
Glazing		All MmT boards use 4mm clear polycarbonate sheet which is treated on both faces to maximise resistance to damage by ultra-violet rays .
Mounting Methods	2	<p>All of our boards can be supplied for wall-mounting, with posts or with a suitable kit for railing-mounting. Wall-mounted boards are supplied with the necessary screws and wall-plugs.</p> <p>1, 2 or 3-post kits can be supplied depending upon the size of the board.</p> <p>Railing mounting kits are tailored to both the size of the board and the railings.</p>
		 <p>Single Post Kit HPPK Post Kit PPK Three Post Kit TPPK</p>
Headers	3	<p>All boards may be specified with an optional header</p>  <p>Straight Header 95 mm high</p>
Header Lettering		<p>Lettering of headers is accomplished using one of three methods. Computer-cut vinyl lettering (ref SL) offers a modern and economical equivalent to traditional signwriting. Alternatives are plain engraving (ref EL) where lettering is left the same colour as the rest of the header and engraved and filled (ref CEL), where the engraved lettering is filled with a contrasting colour for maximum impact. Standard fonts are Times Roman or Arial but in vinyl, most others are available on request.</p>
		<p style="text-align: center;">ARIAL</p> <p style="text-align: center;">TIMES ROMAN</p> <p style="text-align: center;">Examples of standard fonts Standard colours white & gold Lettering is upper case unless otherwise specified</p>
Display Surfaces	4	<p>The standard display surface in all MmT boards in both glazed and unglazed bays is a self-healing rubber pinboard.</p> <p>Alternative choices for glazed bays include fabric-covered pinboard, ribbed letter board (for use with moulded plastic letter sets), and magnetic panels.</p> <p>Signwritten panels and grp encapsulated information panels may also be specified for both glazed and unglazed bays.</p>
Access	5	<p>Unless otherwise specified all glazed bays are supplied as lockable, keyed alike and with 2 keys per board. Alternatives include different lock inserts (requiring different keys to open each bay), or "T" handles for access by non-keyholders.</p>
		 <p>Standard Key "T" Handle</p>
Logos		Single-colour or full-colour logos can be reproduced from suitable artwork either on header panels or as part of a sign-written or information panel.
Letter Sets		For use in bays fitted with ribbed letter board, moulded plastic letter sets offer a neat way to create changeable messages. Available as sets of upper case characters and numerals in 19, 28 and 50mm and lower case 19 and 28mm only. All sets are available in white, silver or gold.
Magnets		For use in bays fitted with magnetic panels, a neat way to secure content without using pins. Available as 25mm magnetic discs or a 10 metre roll x 10mm wide strip.
Dedication Plate		A 75 x 40mm brass plate inscribed with up to 50 engraved characters filled in black.
Contrasting Header Finish		For added emphasis or to maintain a corporate appearance, headers can be coloured to contrast with the rest of the board. Please note that as this is a painted finish, this element of the board will require periodic maintenance.
Lighting		All glazed bays can be illuminated using efficient, low-maintenance LED lighting.
Spare Parts & Additional keys		Your notice board should give many years of good service but, should it be damaged accidentally or by vandals, you can rest assured that we are able to support you with a full range of spare parts. Lost keys can usually be replaced overnight by 1st class post.
