SmallBoard and Sign Panel Combinations

For applications requiring the display of both permanent and changing information smallBoards may be combined with polyester powder-coated aluminium sign panels to fulfil both requirements in a single unit which may be wall or post-mounted.

Prices given below are for wall-mounted versions and are inclusive of polyester powder-coated aluminium sign panel (in a choice of stock colours), smallBoard(s) and your chosen text, applied in computer-cut vinyl characters. Logos, (single colour or full colour), polycarbonate glazing and posts can be added to any board.

Shown below are details of our standard configurations. However, sign panels can be manufactured to a wide range of custom sizes and shapes. Should you require a combination not illustrated, please contact us to discuss your requirements. We will be pleased to offer guidance and provide written quotations on request.

For more in-depth details of our sign panels and similar sign/display case combinations constructed wholly in aluminium, please see our separate brochure and price list.
