FingerPost Systems

Price List

Standard specifications:

Prices given below are for fingerposts manufactured to our standard specification i.e. constructed in aluminium and supplied powder coated to a RAL colour. Multiple post, finger & finial options are all shown below & all are available on a 2-4 week lead time.

Lettering is applied in computer-cut vinyl characters. Logos, crests etc can be reproduced from suitable artwork supplied by the client, printed onto vinyl and applied to the fingers.

Options:

A wide range of options are available such as 1,2 or 3 way finger arms. Finger arms are available with chevron, square ended or bull nosed ends and up to a length of 900mm. In all cases the panels are 16mm thick & double sided. Standard 76mm posts are available as well as a decorative version with collars, base embellishers and finials.

Additionally, if necessary, we are able to supply completely bespoke boards to match existing furnishings and surroundings. To receive a no-obligation quotation please contact us with details of your requirements.
